Report on Add On Course conducted by Chemistry Department during 2018-19 Chemistry in Service of Man

Summary Report

One of the major hindrances in the growth of any country is unemployment. It is not only one of the major obstacles in the country's economic growth but also has several other negative repercussions on the individual as well as the society as a whole. In order to resolve the problem of unemployment and to improve the skills of the students, various departments of Deva Matha College put forward the notion of Add—on course programme.

Chemistry department conducted job oriented Add-on course on file making, grow bag making etc. Many students from different department have participated in the course.

On the first session, a theory class on entrepreneurship was conducted by Mr. Martini Jose. K,a motivational speaker and a career councilor 01-03-2019. He explained the major concepts about entrepreneurship and taught the students how to become a successful entrepreneur. The capacity and willingness of the individual is the secret behind the victory of an entrepreneur.

The second session of the Add-on course was conducted on 02-03-2019 by Mr.Anoop.T.P, an emerging entrepreneur. He taught students to make paper bag and grow bag with the newspaper which we left over. Within a short time, he trained the students to make perfect grow bags and paper bags. Most of the shops use paper bags to handover the sold materials to the customer. So the second class of Add-on course was highly an inevitable class and it would certainly help the individuals to start a small business.

The third session of Add-on course was on 13, 14 and 16thJune2019 by Ms. Jaine Jose, an established lady entrepreneur. She taught to make tote bag, grow bag, file, envelope etc. by using different eco-friendly materials of cloth. Many students have shown their interest and talent in making tote bags and files. Almost all of the students designed their bags, made it more attractive by their own creativity. This class was an interesting class in which the materials used for making these bags and files are eco-friendly.

Course Duration: 30 Hours.
