CROSS TEACHING

Cross Teaching

Cross teaching is an arrangement where senior students conduct classes for junior students. In our department, cross teaching was conducted for third year under-graduate students of B.Com computer application by post graduate students of M.Com. The subject taught was Income Tax and was held as a 30 hour course. The programme helped in inculcating teaching skills and confidence in student teachers. It helps the students to interact freely and thus boost the relationship among all those students in the department.

Selection Criteria

The criteria for selecting student teachers were based on their performance in the seminar conducted in class and overall performance of each student were also analysed and evaluated.

CROSS TEACHING PROGRAMME ON THE FUNDAMENTALS OF INCOME TAX

In order to impart basic knowledge regarding the subject of income tax, PG. dept. of Commerce has organized a cross teaching program for the final year B.com students (2018-19). The class was engaged by a team of 6 students of M.Com 1st year who have completed B.com taxation under the leadership of Jobis (1st year M.Com). The programme was extended for 5 days (8th April 2019 to 12th April 2019). The main aim of this programme was to make the B.com Computer Application students understand the fundamentals of income tax as well as to enhance their proficiency and employability.
