**SCHOLAR SUPPORT PROGRAMME

**NEW INITIATIVES IN HIGHER EDUCATION**

**Directorate of Collegiate Education Government of Kerala**

**Scholar Support Programme (SSP)**  
**Guidelines 2019-20**  
**New Initiatives in Higher Education**  
**Directorate of Collegiate Education**  
**Govt. of Kerala**

The Scholar Support Programme envisions to provide continuous support to needy students of the Undergraduate courses of Government and Aided Arts and Science colleges of Kerala. The annual plan envisages extending support to scholars in the under graduate programme with timely assistance in terms of tutorials, additional lectures, interactive sessions, question banks and study materials. Students who have obtained less than 60% marks in the qualifying examination or in any subject for each semester can join for the SSP.

### **Overview**

Every year a substantial number of undergraduate students fail in the university examinations and many of them drop-out of college. Research evidence points to several reasons for low academic performance and drop-out. Systematic and consistent interventions can improve college students' academic performance and help prevent drop-outs.

Building on this idea, the Scholar Support Programme aims to identify students who are unable to perform well in examinations and understand the possible reasons behind their academic difficulties. By providing a supportive atmosphere wherein individualized and academic assistance is offered to needy students, the programme envisions **to improve exam performance** of students and **decrease drop-outs** in colleges.

### **Outcomes**

SSP has been conceptualized as a data-driven, outcome-based, feedback-oriented program. The colleges participating in the programme are expected to achieve the following outcomes at the end of each year.

1. Improvement in academic performance of low scoring students (Increase the marks in semester exams)

2. Increase in pass percentage of the identified courses(papers)
3. Decrease in the number of students who stop studies and leave college without completing the UG course (Decrease the student drop-out rate)

**The students enrolled in the programme are expected to achieve the following outcomes at the end of their tenure in the programme.**

1. Improvement in academic performance, especially in terms of examination marks
2. Increase in perceived support in college
3. Increase in self-confidence and self-esteem

The college level coordinators of Scholar Support Program are to take note that there are a few changes in the design and components of the program of the year 2019-20. The outcome assessment and the feedback from the stakeholders revealed that last year's program was effective in the components viz. **subject coaching, study skills, language training, exam writing skills and simplified notes**. The same components are retained this year as well. However, to give the maximum benefit to the targeted population, certain changes have been made in the selection process and components of the program. The program at each college has to be devised on the data related to exam results and needs of the students. In order to facilitate this purpose, SSP will be kept as an '**open door**' system in each college; its enrollment will be revised yearly, based on the data gathered.

#### **General Instructions**

1. There is a **coordinator** at the college level who is the in-charge of the program. The college level coordinator has to be nominated by the college council.
2. The scheme has to be discussed in the college council and amongst the faculty members.
3. A monitoring committee comprising of the **IOAC cell, CLMC for UG courses, PTA secretary** etc. shall be formed so as to monitor the implementation of the programme, under the direction of the Principal and college council. The committee should meet **once in two months** for the evaluation of the conduct of the programme. The monitoring committee should suggest steps for the improvement of the programme, if needed. **Minutes of the meeting should be maintained** by the Coordinator of the SSP.
4. A yearly batch of **SSP contains 40 students, preferably 8 needy students each from 5 Departments**. However, the proportion can be decided by the college level monitoring

committee. Make sure that students of different streams are given sufficient representation in the selection list. **Smaller colleges can recruit more than 8 students from less than 5 Departments so as to make a total of 40 students.**

5. **The selection of students shall be based on the criteria given in the guidelines.**
6. Selection of a particular student is for a period of one academic year only. The goal of the programme is to **equip the student for a better academic performance by the end of the academic year and remove him/her from SSP. A fresh batch, with new set of students and preferably new set of Departments, is to be selected the next year, in consultation with group tutors, monitoring committee and college council. (If the student continues to require additional support, s/he can be retained in the programme.)**
7. **Send the final list of selected students in the given proforma (through email) immediately after the completion of the selection.**
8. An internal trainer from each Department (**5 Departments preferably**) will be in charge of the students selected from that particular Department. Class tutors of the selected students can be the internal trainers, ideally.
9. There are **6 components for SSP** from this year onwards. **5 of them have specified number of hours** allotted while the **6<sup>th</sup> one is a general supporting and monitoring work**; one part of it is intended for the students enrolled in SSP and the other part covers the whole college. Details of the components are given in the table attached in the guidelines.
10. Students will **receive classes by internal resource persons and external trainers**. Subject coaching for the main and/ or complementary subjects will be given by the internal trainers or other resource persons like other **permanent teachers, PhD scholars, retired teachers etc. recommended by the internal trainer**. These classes shall be designed so as to help the low performing students pass the exam. **Simplified notes, solved question papers and exam oriented preparations shall be the integral part of subject coaching.**
11. Another component of the programme, **English language coaching has both internal and external sessions. Internal sessions will be conducted for English papers (First Language) by English teachers of the college, in the same manner as subject coaching for other subjects is done. External sessions to improve general skills in English language are handled by external trainers from ASAP. Another component, Learning Skills are imparted by external trainers. The list of external trainers will be provided by the Directorate of Collegiate Education.**
12. **All Departments are to be informed that student drop-outs should be informed to the college level coordinator of SSP. It would be the collective responsibility of the entire college community to prevent drop-outs. The SSP coordinator has to coordinate these efforts, from this year onwards.**

#### Duties of the college level coordinator

1. Identify the **neediest students from various Departments** with the help of the college council and tutors and persuade them warmly to enroll in the programme.
2. With the help the tutor/ internal trainer, identify the papers (subjects) for which subject coaching is required and record the same.
3. The forms of enrolment (**Form no.1 for I year and Form No. 2 for II year and Form no.3III years**) and the form to identify the possible reasons behind the need for additional support (**Form no. 5**) are to be filled in by the students and the tutor/ internal trainer. Identify the areas in which each participating student needs additional support with the help of the respective tutor/ internal trainer. The filled-in forms along with a brief bio-data prepared by the student will help to understand the profile of each student.
4. Discuss possible means to manage the identified papers and areas with the respective trainer/tutor.
5. Persuade the students to continue in the program. Maintain a warm and personal connect with each student enrolled.
6. Collect **attendance reports and other records from all internal teachers on a monthly basis**, or else maintain a centralized record at the Principal's office for easy verification. **Form No. 6** can be used for this purpose. **Form No 7: Format for recording internal sessions (English and Subjects)**. **Form 8** Proforma of Attendance sheet for External trainers (ASAP, Learning skills)
7. Collect and maintain the record of the academic performance and attendance of each participating student in each semester (**Forms 9, 10, 11**).
8. Collect and record the ESA mark details of students who score low in each class, each year, along with class tutors.
9. With the help of the college council, seek the cooperation of all Departments in **preventing drop outs** from the college. (Note that this aspect of the SSP covers the whole college, not just the students enrolled in SSP. The goal is to prevent students from leaving studies before completing the UG course.) At the beginning of this year's program, approach each Department, record each case of drop-out from the college that happened during the year 2018-19, record the perceived reasons behind each and the efforts taken to prevent each, if any (**Form no.12**). Associate with the tutors and the PTA to prevent drop outs in the current

- academic year by intervening sufficiently early and continuously. At the end of the program of this year, compile the data related to this year's drop outs (**Form no.13**)
10. Coordinate the outcome assessment both at the beginning and end of this year's program (**Form no. 14 and Form no. 15**).
  11. Send the **filled in forms 1, 2, 3, 4, 5, 12 and 14** immediately after student-selection to the state level coordinator (**e mail only**).
  12. Send the list of all internal and external sessions conducted and the student attendance (**Form no. 13**), and the outcome assessment forms (**Form no. 9, 10, 11, 15**) to the state coordinator at the end of the programme of this academic year. (Efforts are being made to avoid hard copies and to send and receive the maximum number of forms in the electronic format.)
  13. Coordinators can claim a **yearly honorarium**.

#### **Selection of students to SSP**

The **neediest Students of each year from selected departments (5 only)** are to be enrolled in each college.

#### **Criterion for selecting the Departments:**

- Departments with the highest number of students with need for additional support are to be selected. Ensure that teachers are available for providing additional support in the selected departments.

The monitoring committee has to identify the beneficiary departments. The Departments and the list of selected students might vary each year. Student selection is based on both academic performance and other aspects of student functioning. The criteria for student selection are given hereunder.

#### **Criteria for student selection**

##### ***1. Primary criteria***

1. Students who scored the lowest total marks in the examination(I year students: Total marks in +2 examination; II and III years:Previous semester's Cumulative ESA or tutor's report on students' academic performance)
2. Students who scored the lowest marks in English examination(I year: English marks in +2 examination; II and III years:Previous semester's ESA of English or tutor's report on students' academic performance)

Apart from low marks, there can be some additional conditions that make students require additional support. Such students who fulfill the following additional criteria also can be selected.

***II. Additional criteria include the following:***

3. Students who did not appear their previous examination/s (II and III years)
4. Students with low attendance in the previous semester (II and III years)
5. Students who suffer from chronic illness/ health problems/ accidents
6. Students who are differently abled
7. Students who are inmates of special homes
8. Students in sports, arts and similar engagements who find it difficult to attend sufficient number of classes
9. Students from disadvantaged communities
10. Students from remote areas
11. Students from other states
12. Students from foreign countries
13. Students from linguistic minorities
14. Married students
15. Students on maternity leave
16. Students who are working on part time jobs
17. Students who need special attention or additional support in any other manner

***PS: Serial numbers of all relevant criteria (from 1 to 17) are to be entered in the student enrolment form with the help of the internal trainer/ tutor.***

**Year-wise Selection**

*I year:* Enroll students with the lowest marks in 12<sup>th</sup> and the need identified by the respective tutor and/or HoD, recommended by the college level coordinator, and approved by the college council

*II year:* Review semester results, remove students who do not need additional support from the existing list, and enroll afresh based on semester results and other needs identified by the

respective tutor and/or HoD, recommended by the college level coordinator and approved by the college council

*III year:* Review semester results, remove students who do not need additional support from the existing list, and enroll afresh based on semester results and other needs identified by the respective tutor and/or HoD, recommended by the college level coordinator and approved by the college council

### Duties of internal trainers

**Internal trainers have to assist the coordinator** in maintaining a close contact with the enrolled students and in arranging the internal classes (subject coaching). Ideally, the tutor of the selected students from a Department is the person most suitable to function as the internal trainer. Their duties are:

1. **Identify the papers in which the students need subject coaching** and the areas in which they need additional support. Help the coordinator fill in the form in this regard.
2. **Engage internal classes** (subject coaching or special/remedial classes) as resource person outside the class hours, preferably on Saturdays. (Retired professors or M.Phil / Research Scholars too can be brought in by the internal trainer to handle a few sessions; however they cannot function as the internal trainer.) If the internal trainer is not taking all the allotted classes, s/he can allot the classes to other teachers who can be the suitable resource persons to that particular paper.
3. **Support** the student in his/her area of academic need.
4. **Support** the student in the additional areas of need.
5. **Motivate** the student.
6. **Help** the students in preparing a bio-data containing their personal and academic details and goals and hand them over to the college level coordinator
7. Internal trainers should keep a **proper attendance** of his/her sessions and meetings with his/her scholars including date and time. Photos of the subject coaching sessions can also be kept.
8. **Evaluate** the progress of the scholars in consultation with the college level coordinator and other teachers at regular intervals and take necessary corrective measures so as to meet the desired objectives.
9. Internal trainers are requested to participate in the Scholar Support Programme as part of their **tutorial duties**. Internal trainers and other internal resource persons like other teachers,

PhD scholars or retired teachers will receive honoraria for the subject coaching sessions they engage. (Please note that the honorarium is given for the classes engaged, not for the process of identifying and supporting the students.)

General reminders:

The target population of the program is the students who perform low in academic assessments, due to various reasons. It is to be ensured that the most deserving students are enrolled and that they are not dropped out. Many students might refrain from the program due to the stigma of being labelled as a dull student. Many students might be unwilling to attend the program due to various reasons like part time job, transportation difficulties on Saturdays etc. As a result of such problems, students who are not the ideal target of the program might enroll. If the students of average or above average academic performance are enrolled in large numbers in SSP, the programme will lose its purpose. The coordinators are requested to anticipate aforesaid difficulties and to contain them so as to ensure proper selection and retention of the neediest students.

**The outcomes of the Scholar Support Programme can be achieved only through considerable initiative, a warm and personal connect with each needy student and a data-oriented and flexible approach from the part of the college level coordinator. The Scholar Support Programme urges each college level coordinator to work towards achieving the outcomes of increased pass percentage, decreased drop-out rate and a better perceived support for the needy students.**
