MISSION & VISION

OUR MOTTO

"Truth will make you free"
(St. John 8:32)

OUR MISSION

We hope to translate our found vision into a concrete reality through the various programmes launched by the college, having the following as thrust areas.

OUR VISION

The college envisages the intellectual development, moral uprightness, social commitment, cultural refinement, spiritual enlightenment, and emotional maturity of the younger generation.

- Globally relevant academic excellence
- Value based human development
- Adequate training for higher education
- Identification of opportunities for the disadvantaged
- Ensuring gender justice and integrity of creation
- Formation of responsible leadership
- Preperation of healthy family life
- Foster religious harmony and advance science and religious engagement
- Soft skill training.

MENTORING & TUTORIAL

The major purpose of Mentoring is listening, as it is the key to an effective communication. Lack of listening leads to breaks in communication, making the person on the other end frustrated. Effective listening is a skill that underpins all positive human relationships. Moreover in this modern world, people are busy, making individuals all alone and sharing their feelings impossible. So in that sense also listening, the feeling of someone is there to hear me, is precious. As by-products, mentoring includes encouraging, sharing experiences, giving help, advice and guidance to mentees and pointing them to other sources of support or referral.

A well-structured Three Tier Mentoring System is following in Deva Matha College Kuravilangad. At the base level, one faculty is allotted as mentor to a group of students (mentees). In our system, mentors perform different functions that are beneficial to the mentees. At the middle level, Heads of the Departments play a vital role in the mentoring system by monitoring the progress in its processing. At the top level, IQAC acts as a tool to streamline and monitor the mentoring activity in various departments. On the basis of feedback from mentors, the Mentoring Co-ordinator in consultation with IQAC, offers support of external expert to needy mentees. The college is responsible for providing training, advice and on-going guidance to the mentors.

ALUMNI

There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services. Alumni Association conducts its general meeting on the second Saturday of December every year. Alumni association honours the Golden Jubilee batches of the PDC and the Silver Jubilee batches of UG and PG. Poorva Vidhyarthi Ratna (Gem of the Alumni) award is given to the outstanding Alumni. The Alumni day is celebrated with much pomp and glory. The function conducts insightful sessions to be led by eminent personalities followed by cultural events. A keen effort is taken to appreciate the luminaries of the college.

PTA

For every class, PTA meetings are held at least once in a semester to discuss and communicate the progress of the students to the parents. An annual PTA meeting is also conducted with useful sessions for the parents to guide and orient their children. Due to the Covid restrictions, PTA meetings were held online and interactive discussions with parents helped the teachers to examine the academic performances of the students amidst the pandemic when they were limited to their homes.

GO GREEN INITIATIVES

Green Campus: A Green Campus is a place where environmental-friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of mankind.

Objectives of the Go Green Programme

The first step of the Go Green Programme involves establishing a viable Green-Campus Committee, within the organizational structure of the Institute. Hence, to give this initiative more clarity and authenticity, we now roll out a POLICY DOCUMENT spelling out the strategies, plans and other allied tasks to make this Program functional officially. We believe that greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, purchase of environment friendly supplies and effective recycling program. The administration of the Institute believes that everyone has to work out the time bound strategies to implement green campus initiatives. These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus. Every individual of DMC will work, may he/she be a student, faculty and support staff, to foster a culture of self-sustainability and make the entire campus environmentally friendly. The Green Campus Initiatives (GCI) will enable the institution to develop the campus as a living laboratory for innovation.

Role of the Go- Green Campus Programme

The impetus for a successful Green Campus must begin at the top and emanate throughout the rest of the campus. Well-intentioned initiatives may be fragmented to allow for Institute-wide participation. For this, the committee will plan and execute to:

1. Conduct the Campus' environmental impacts to identify the targets for improvements.
2. Establish a Green Campus Environmental Ethic Awareness campaigns.
3. Set forth a Green Campus Mission and a Statement of Principles.
4. Organize Awareness Programs for the students and faculty.
5. Phase out the CFL and conventional light source such as bulbs and tube lights, halogen and mercury street/campus lights and get them replace by the LEDs.
6. Conduct an Annual Green, Environment and Energy Audit.
7. Purchase only Energy Efficient Computers viz: “ENERGYSTAR” or any other equivalent.
8. Evaluate daily operations in terms of pollution prevention, waste stream management, and energy efficiency reducing, reusing, recycling, and repairing wherever possible.

Promotion of “Save Energy Tips” in and outside the Institute

1. Activate power management features on your computer and monitor so that it will go into a low power “sleep” mode when you are not working on it.
2. Turn off your monitor when you leave your Table.
3. Activate power management features on your laser printer.
4. Whenever possible, shut down rather than logging off.

1. 5. Turn off unnecessary lights and use daylight instead.
2. 6. Avoid the use of decorative lighting.
3. 7. Use LED or compact fluorescent bulbs.
9. Keep lights off in conference rooms, classrooms, lecture halls when they are not in use.
10. Use the fans only when they are needed.
11. Unplug appliances not plugged into power strips (like TVs, Refrigerators, ACs, printers, chargers etc.).

Waste water Management/ Rain water harvesting: Water flow restrictors on bathroom faucets and showers, low water flow toilets and automated urinal flushers should be used to cut down campus water use. The Institute will take all necessary measures to implement waste water management /rain water harvesting.

Major Green Campus Initiatives: • ISO Certification • Installation of Solar Power Station • Waste water Management/ Rainwater harvesting • Displayed poster on E-waste Management, save water and save energy. • Initiatives to make paperless administration • Plastic free Campus • Tree Plantation Drive • Cleanliness Drive • Use of LEDs only • Digital Library/ E-Learning Centre • Green, Environment and Energy Audit conducted • Restricted entry of automobiles. • Practicing No Vehicle Day.

BEST PRACTICES
