

## 1. Talk on Current Women Issues

Academic Year : 2018-19

Date on which program conducted : 04/08/2018

### *A Brief Report of the Programme*

A talk on 'Current Women Issues' was led by Dr. Sr. Fancy Paul, Joint convener of Women's forum. Women and girls make up half the world's population. Yet far too often, their voices, experiences, and contributions are overlooked or undervalued. They are underrepresented in the halls of political and economic power and overrepresented in poverty, while barriers from gender-based violence and lack of political and economic opportunities, to laws that hold women to a different standard block the path to progress. Inequality and the low status of women and girls have vast political, economic, and social implications. This can limit the ability of communities to resolve conflict, countries to boost their economies, or regions to grow enough food. The untapped potential of women remains a lost opportunity for economic growth and development the world can ill afford. The inclusion of women in peace and security, and conflict prevention and resolution is essential to ensure gains reach all members of society.
