Add-on Courses offered under the National Youth Programme (NYP)

Deva Matha College is offering 11 add-on courses for the academic year 2023-24. These courses include 10 certificate courses and a diploma course, all of which fall under the National Youth Programme (NYP) for Youth Employability Skill Training. This programme is under the aegis of the Ministry of Co-operation, Government of India. Various departments offer the following add-on courses:

1. Certificate Course in Data Entry and Microsoft Office (offered by Dept. of Economics)
2. Certificate Course in Tally (offered by Dept. of Commerce)
3. Certificate Course in Communicative English Training Programme (offered by Dept. of English for all first-year students of the college)
4. Certificate Course in Malayalam DTP & Copy Editing (offered by Dept. of Malayalam)
5. Certificate Course in Basics of Analytical Chemistry (offered by Dept. of Chemistry)
6. Certificate Course in Environmental Quality Monitoring and Impact Assessment (offered by Dept. of Zoology)
7. Certificate Course in Hindi Translation & Documentation (offered by Dept. of Hindi)
8. Certificate Course in Python (offered by Dept. of Maths)
9. Certificate Course in LaTeX for Scientific Documentation (offered by Dept. of Maths)
10. Certificate Course in MS Office Essentials and Python Fundamentals (offered by Dept. of Physics)
11. Diploma in Agricultural Production Management - Farming, Tissue Culture & Cultivation (offered by Dept. of Botany)

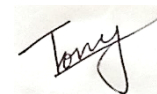

The NYP add-on courses provide a government-approved certificate with Skill India badging on successful completion.

- The students were enrolled only for the following five add-on courses:

Sl. No	Name of the add-on Course	Organizing Department	Coordinator	Number of students enrolled	Brochure & Page No
1.	Diploma in Agricultural Production Management	Botany	Dr. Varghese M.C.	20	3-5

Syllabus

Add-on Course

Introduction to Python

Academic Year: 2023-24

Offering Department: Mathematics

Instructional Hours: 30 hrs

Duration: Three Months

Intake Capacity: 40

Eligibility: +2

Course Objectives:

- Introduce students to the fundamentals of Python programming language.
- Familiarize students with basic programming concepts and syntax.
- Enable students to write and execute Python programs.
- Develop problem-solving skills through hands-on programming exercises

Course Outcomes:

By the end of this course, students should be able to:

- Understand the basic principles of programming.
- Write and execute Python programs.
- Use variables, data types, and operators in Python.
- Control program flow using conditional statements and loops.
- Implement functions and modularize code.
- Work with strings, lists, tuples, and dictionaries.
- Understand basic concepts of object-oriented programming.
- Use built-in modules and libraries to enhance program functionality.

MODULE 1

- Introduction to Python, its installation, IDLE and file name
- Output function, Arithmetic operators, input variables
- Assignment statement, simple string operations

MODULE 2

- While loop
- If statement
- relational operators
- For loops

MODULE 3

- Creating strings
- Lists, tuples
- complex numbers

MODULE 4

- Using functions
- parts of a function
- using modules
- mathematical functions
