

REPORT ON INDUSTRIAL VISIT

As part of the study tour, the third year B. Com students had their industrial visit on 2nd January 2020 at **Trust Trading Company in Coorg**. They reached the company at 11.45 AM. It was a company dealing in processing the coffee seeds. As a part of processing, coffee seeds were graded to different categories according to the quality of coffee seeds. All these processes were done using different types of machines. As per the information they got from the company, the best quality seeds were exported to different countries. The low quality seeds are marketed in India. Due to unexpected power failure they couldn't understand the complete processing of coffee. After the visit they started next destination around 12.20 PM.
